#### **Satish Gagrai**

- 3 Day Event (include an extra day for camping and outing).
- Filter participants for extra co-curricular activities.
- Don't leave out the parents. Include them on the last day, especially in stage performances. Arrange snacks for them at least once.
- Have a standard concept for the event.
- Why only in October? (Good weather; festivities.)
- No special practice for chief guests. Everyone is equal; VIP culture shouldn't be entertained.
- Start with prayer on the first day.
- Funds are not transferred between the organising teams. The corpus fund should be utilised accordingly.
- The Central Committee or Governing Body should take financial matters into their hands.
- Management needs to be corrected in cases of leadership conflicts.
- No political involvement.

#### **Nabina Gagrai**

- Only graduates and above should be invited as participants. (It encourages them to socialise.)
- Games and activities should be given ample time.
- Cultural or stage performances should only be hosted on the last day.
- Awareness programmes should be included in the event for the betterment of society.

#### **Deepak Banra**

- It's a good platform for professional youth and couples of the community (focused ones).
- We shouldn't include minors in the event.
- The event should be organised structurally to avoid last-minute mishaps.
- There should be a budget for social causes.
- It helps create an image for the organisers and provides leadership opportunities.

#### **Biswajeet Sinku**

- Communication problems were resolved through online meetings.
- ₹3.51 lakh was raised during NYHM Bhubaneswar, 2015.
- Lack of financial transparency leads to cheating and fraud.
- Language barriers cause communication problems between participants and organisers.
